Argument Techniques

Across

4. facts, information or expert opinions used to support an argument
 6. linking an outcome to a particular set of events or decisions
 7. attacking or insulting a person rather than addressing their opinion or the facts
 10. plays on people's tendency to react emotionally when their safety, security, country or loved ones are threatened
 11. a brief personal account or story

12. basing an argument on a premise that is the same as the conclusion
 13. the use of evidence or deduction to support a clear argument
 14. a sweeping statement that claims that something is true for most or all cases because it is true in one or some instances
 15. misrepresenting an opponent's argument in order to make it easier to rebut

Down

1. draws on national pride and people's loyalty to their country

2. examining general rules about a group to form a conclusion about one small part of the group
 3. observing a series of specific events to form a more general theory about what is most likely happening
 5. an idea or statement that someone takes for granted as being true
 8. comparison between two things that help us draw conclusions about their similarities
 9. engages with people's belief that everyone deserves fair treatment
