## **Across**

- **7.** What preforms a vital function in the body?
- 9. What keeps a cell in its shape?
- **10.** What organelle packages proteins? **Down**
- 1. What organelle makes protein?
- **2.** What organelle stores water, waste, and food?
- **Word Bank**

Cellwall Organ
Nucleus Mitochondria
Organelle Cytoskeleton

- **3.** What helps keep all the organelles together?
- **4.** What organelle breaks down sugar into energy?
- **5.** What is the gel like substance inside the cell?
- **6.** What are the organized or specialized structures within a living cell?
- 8. What organelle stores DNA?

Ribsosomes Vacuole Golgicomplex Cytoplasm
