

You've Got to Move It

Across

4. Energy is neither created nor destroyed, only changed from one form to another
7. Force due to gravity
11. Energy in a spring
13. Energy transfer through a substance
14. Energy produced by moving electrons
15. Heat energy
16. Transfer of energy in the form of waves

18. Another name for resultant force

19. Energy of motion
20. Measuring tool for force
22. Not moving

Down

1. Upward force on a floating object
2. How fast something is going
3. Energy in an object above the ground

5. Material that does not allow heat through

6. Type of friction
8. Increasing speed
9. Push or pull
10. Unit of Energy
12. Transfer of heat to the surface
17. Force on objects that are not moving
21. Unit of force
