

Name: _____

Date: _____

Biomolecules

Across

4. The monomer of DNA
5. The monomer of proteins (2 words)
7. Fatty Acid is the monomer for this biomolecule
8. The most basic and important sugar
9. What type of biomolecule should you eat for long term energy?
10. Pasta is a good source of this biomolecule

11. This type of fatty acid is liquid at room temperature

Down

1. Meats. Eggs. and Nuts are good sources of this
2. What type of biomolecule should you eat if you want short term energy?
3. The monomer of lipids
6. This type of fatty acid is solid at room temperature
