Name: _____ Date: _____

# Algebra 1

Across

2. The horizontal number line on a coordinate plane

6. A polynomial with two terms

9. Distance around the outside

11. The point (0,0)

13. Minus

15. A comparison of two numbers by division

16. Symbol used to represent unknown numbers or values

18. The set of second numbers of the ordered pairs

19. Please Excuse My Dear Aunt Sally

21. To shift a graph vertically or horizontally

22. The form of a linear equation Ax + By = C, with a graph that is a straight line

Down

1. A relation between input and output

3. A point where the graph intersects an axis

4. The numbers that correspond to a point on a coordinate system

5. To draw or lot the oints named by certain numbers or ordered pairs on a number line or coordinate plane

7. The answer when multiplying

8. Sum

10. To find the value of an expression

12. The set of the first numbers of the ordered pairs

14. A mathematical sentence that contains an equal sign

17. The vertical number line on a coordinate plane

20. The ratio of the change in the y-coordinate (rise) to the change in the x-coordinate (run)
