

# Minerals and energy resources

## **Across**

- 3.** Deposits known to be the largest in world  
**5.** Sands of kerala rich in thorium  
**6.** Basic raw material essential for smelting iron ore  
**7.** Energy obtained by altering the structure of atoms  
**8.** Areas well known for effective use of wind energy in country

**9.** Naturally occurring liquid found in fault traps between porous and non-porous rocks

**10.** Formed due to evaporation

## **Down**

**1.** Geological age of coal formed over 200 millions years in age

**2.** Bauxite deposits are formed by decomposition of rocks rich in .....

**4.** mineral in which India is critically deficient
