The Three States of Matter: Solid, Liquid, Gas

Across

- **2.** Process by which a gas changes its state to become a liquid
- **6.** When two liquids react, forming a solid
- 7. The process by which a liquid turns into a solid
- **10.** Fixed volume, no fixed shape
- **11.** Fixed volume and shape

- **12.** The lowest temperature at which a solid begins to melt, and form into a liquid
- **13.** The temperature at which a liquid boils

Down

- **1.** Process by which a solid turns into a gas
- **3.** The process by which a liquid becomes a gas

- **4.** The temperature at which a liquid becomes a solid
- **5.** Process by which a solid becomes a liquid
- **8.** No fixed volume or shape
- **9.** Produces bubbles that contain dissolved air that is leaving the liquid
