

# Nursing Ethics

## **Across**

- 4.** Duty of ..... - healthcare professional must be open and honest with patients when something that goes wrong with their treatment or care causes, or has the potential to cause, harm or distress.
- 7.** Ethical theory that determines right from wrong by focusing on outcomes - the most ethical choice is the one that will produce the greatest good for the greatest number.
- 8.** To speak, plead, or argue in favor of. Support.
- 9.** Action that is done for the benefit of others - actions can be taken to help prevent or remove harms or to simply improve the situation of others.
- 10.** Taking into account and giving consideration to the patient's views on his/ her treatment.

- 11.** Duty-based ethics - concerned with what people do, not with the consequences of their actions.

## **Down**

- 1.** Do no harm or inflicting the least harm possible to reach a beneficial outcome.
- 2.** Information about the person is only shared with others after permission of the person, unless it is felt that the information must be shared to comply with a higher duty such as preserving life
- 3.** A process through which people gain greater control over decisions and actions affecting their health
- 5.** Concept involving fairness, equality, and equitable treatment
- 6.** NMC Guidance for Nurses
